Wabtec CORPORATION

REVOLUTIONIZING THE WAY THE WORLD MOVES FOR FUTURE GENERATIONS

Wabtec is a leading global provider of equipment, systems, digital solutions, and value-added services for the freight and transit rail sectors. Drawing on more than 150 years of experience, we are leading the way in safety, efficiency, reliability, innovation, and productivity. Whether it's freight, transit, ports, logistics, mining, industrial, or marine, our expertise, technologies, and people together – are accelerating the future of transportation.

With roots that date back to George Westinghouse, Thomas Edison, and Louis Faiveley, Wabtec has always built technologies and implemented solutions for a variety of sectors that are critical to meeting the needs of customers and governments alike.

SUSTAINABILITY

Innovating with purpose
We are committed to developing responsible and sustainable products that minimize the impact on the planet.

Driving responsible operations
We are committed to providing safe work environments and products that enable productive and efficient use of resources.

Empowering people and communities
We are committed to driving an inclusive culture grounded in integrity, committed to the development of and investment in the communities where our teams live and work.

GLOBAL FOOTPRINT

20% of the world's freight is moved by a Wabtec locomotive.

On average, Wabtec locomotives travel 1.5 billion miles per year in some of the harshest conditions.

One in five freight rail cars in operation have Wabtec products on them.

Wabtec has helped customers save $1.3 billion in fuel to date, while slashing 3.8 million metric tons of CO_2.

Wabtec provides products and components to virtually every major rail transit system around the world.

WHAT WE DO

FREIGHT EQUIPMENT

Wabtec locomotives move the world with a comprehensive set of best-in-class products that deliver unmatched reliability and efficiency for our customers. We are also meeting customers' sustainability and clean air needs with products like our Tier 4 locomotive, which reduces NOx and particulate matter emissions by more than 70%, or the FLXdrive battery-operated locomotive, which has the potential to reduce fuel and carbon emissions by up to 30 percent. And our equipment offerings go way beyond rail. Wabtec also has a deep portfolio of products for the mining, drilling, and marine industries.

FREIGHT SERVICES

To extend the lifecycle of our customer's locomotives, Wabtec provides integrated services designed to maximize the reliability and availability of their equipment as cost effectively as possible. Whether it's modernizations, rebuilds or upgrades; multi-year service agreements; or maintenance-of-way services, Wabtec works hard to keep freight rail operating at peak performance.

DIGITAL INTELLIGENCE

The transportation industry is increasingly looking to optimize operations, improve safety, reduce dwell, and use less fuel – all while adapting to demand and keeping employees and passengers safe. Wabtec has a comprehensive set of applications – from asset reliability, signaling, and network and logistics solutions for rail, to digital solutions for mines, shippers, and ports – that deliver outcomes that matter.

COMPONENTS AND INDUSTRIAL SOLUTIONS

Wabtec has leveraged 150 years of experience making brakes for the rail industry to develop the most advanced freight-car braking equipment available on the market. But we are more than just brakes. Wabtec also offers an unmatched selection of freight car components including brakes, bogies, and end-of-car systems.

TRANSIT

Almost every major transit system around the world relies on Wabtec to move billions of passengers safely, sustainably, and comfortably every day. Whether it's improving air quality for passengers with cleaner, greener HVAC systems; providing safe, reliable braking systems; or refining accessibility with advanced door system technology, our products leverage Wabtec's deep experience to meet the specific needs of our customers.

OUR PEOPLE

Wabtec is more than just its products. Our people are some of the most talented and passionate professionals in the industry, all driven by the same purpose – to move and improve the world – and guided by our vales of safety, customer focus, excellence, innovation, and teamwork. Our inclusive culture attracts a team with different backgrounds, skills and perspectives and that diverse thinking leads to the kinds of innovative ideas that best meet the needs of our customers.
